EDUCATION

International Pioneers School | Thailand

Year 13 / A Level studies: Mathematics, Physics, Computer Science.

IGCSE: Computer Science A. **SAT:** 1250 (Math 630; Reading & Writing 620).

Current AS: Mathematics C, Physics D, Computer Science D. Physics and Computer Science retakes planned for October 2026; A2 study continues.

SELECTED INDEPENDENT PROJECTS

KRUNG | Thailand-focused news and research platform

Built a platform that connects storylines, summaries, and sources. Developed skills in information architecture, UI/UX, research design, accessibility, and deployment.

OrderFlow | Commerce product experiment

Explored a complete product-to-order workflow for small businesses, including storefronts, checkout, and order management. Worked with Next.js, Supabase, authentication, and relational data.

Mitra | Python desktop assistant experiment

Explored reminders, audio interaction, and quick app launching through a custom desktop interface. Practised Python application structure and desktop UI design.

TECHNICAL SKILLS & FOUNDATIONS

Programming languages: Python, JavaScript, TypeScript, SQL, HTML / CSS, Lua.

Frameworks & tools: React, Next.js, Tailwind CSS, Git / GitHub, Supabase, Cloudflare, Vite.

Technical foundations: Problem solving, Database design, APIs, System design basics, Debugging, Accessibility.

Engineering & design: Arduino, Electronics, Robotics exploration, UI / UX, Prototyping, Research.

ACADEMIC HIGHLIGHTS

Best in Computer Science - school award.

7+ Perse Python competition certificates - competitive programming and problem solving.

Robotics Olympiad invitation - invited to participate; not a competition result.

INVOLVEMENT & INTERESTS

Ror Dor: Thai Reserve Officer Training Corps student training; discipline, responsibility, and teamwork. **Independent exploration:** Arduino, electronics, and robotics.

Interested in computer engineering, AI, robotics, secure systems, and technology with practical value in Thailand.
